Cylinder Heads & Parts for Dodge Ram 50 for sale | eBay

The head gasket in a single-engine Mitsubishi rests in the middle of the engine and cylinder head. The part is an important component on the Mitsubishi, since it keeps the coolant and motor oil from mixing together while it circulates through the engine block. It also is the location where the internal combustion ...

How to Replace Mitsubishi Head Gaskets | It Still Runs

Spark Plug Gap setting is important for proper engine operation. To set the spark plug gap correctly, you need to use a spark plug gap tool. For reference, see our spark plug gap chart below, this chart converts metric measurements to standard.

Pretty sure that 2.6L in the Mighty Max is the same as the one that's in the Mitsubishi Starion, which was the 4g54 motor. The DSM motor is a 4g63- a 2.0L motor, so you've got two different displacements there. Different blocks, so doubt oil and coolant passages would line up doing just a head swap.
