Paragraph 15.10.1.2(c) said that sound cash management included avoiding prepayments (or payments in advance) for goods or services. The principle was that the service or goods should have been received before payment was made. All payments should also be covered by contractual arrangements with the

Advance payments, insurances The state does not recognise or make advance payments on contracts. It may terminate the contract if the contractor does not affect or maintain the required insurances. In the private sector, the other party to the contract would affect such insurances and recover the expense so incurred from the defaulting party.

others, a seller may receive an advance payment before it has done anything to earn the payment. When this happens, the correct accounting is to recognize the advance as a liability, until such time as the seller fulfills its obligations under the terms of the underlying sales agreement. Two journal entries are involved.
