Harman Kardon AVR 146 Manuals and User Guides, Receiver ...

The AVR 146 is designed to process audio and video input signals, playing back the audio and displaying the video on a television or monitor connected to the AVR. These signals originate in what are known as "source devices," including your DVD player, CD player, DVR (digital video recorder) or other recorder, tape deck, game console, cable or satellite television box or MP3 player.

Premium speakers from AKG such as wireless bluetooth speakers, Android & iOS headphones, soundbars, subwoofers, home theater systems, computer speakers, & iPod/iPhone docks. Get the best sound for music, smartphones, tablets & TVs with AKG speakers.

Harman Kardon US

One thing that may turn-off potential buyers is the low wattage per speakers from the AVR-146 at only 30 watts per channel. I suppose if you need a new AVR for a huge Home Theater room you should get something more powerful. But I've had receivers with higher watts and they never sounded THIS good.
