I need to get the file type of a file with the help of node.js to set the content type. I know I can easily check the file extension but I've also got files without extension which should have the content type image/png, text/html aso. This is my code (I know it doesn't make much sense but that's the base I need):

javascript - Node.js - File System get file type, solution ...

Node-voltage method provides a systemic and efficient procedure for determining all the currents and voltages in a circuit. This determination is realized through the solution of a system of linear, simultaneous equations in which the unknown variables are the voltages at the extraordinary nodes in the circuit.
