Revelations of Mars by Jeff Combos — Kickstarter

The Mars Project is a non-fiction scientific book by the German rocket physicist, astronautics engineer and space architect, Wernher von Braun. It was translated from the original German by Henry J. White and first published in English by the University of Illinois Press in 1953. The Mars Project is a technical specification for a human expedition to Mars. It was written by von Braun in 1948 and was the first "technically comprehensive design" for such an expedition. The book has been described

Expedition Mars. Questions? Ready to book? Please call (203) 372-3521 ext. 139. The year is 2076. A handful of facilities have been established on Mars, including a greenhouse, a mobile geological survey base, and a centralized research habitat. The primary human habitat is not on Mars, but on one of its moons, Phobos.

Expedition Mars - Discovery Museum

The book Expedition Mars covers all technological fields needed to make a manned mission to Mars happen. The orbital mechanics of such a trip described in this book are even for a non-expert easy to follow, while the section on launch mass makes clear that every kilogram of payload to be send to the Martian surface needs a major increase in the launch mass of the rocket lifting the mission of Earth's surface.

Expedition Mars (Springer Praxis Books): Turner, Martin J ...

The point of the Death on Mars is the amount of Xenon 129 in Mars atmosphere can only be explained by a large scale Fusion (Hydrogen) bombs going off in Mar's atmosphere. This fact coupled with a large asteroid impact within the center of nuclear explosions leaves from for doubt.

Mars Crossing - Wikipedia

Lukewarm near-future tale of a Mars expedition. The science in this book was great but the human interaction portion really fell apart. Those parts felt like it was written by a Junior High School student, just not very realistic or believable. Also, I understand it was a multi-racial, multi-gender crew, but the author felt like he had to make ...
