- You can darken a color with the closest dark color to the same color. For example, use purple on red. Or use dark blue or dark brown before black.
- Remember not to use black as the top layer on any color.
- To lighten a color, create a layer with a lighter color on it.
- Combine a color to intensify it.

Master Realist Techniques in Colored Pencil Painting in 4 ...

Eyesight Realism Not Camera Realism . Don't take a single photo and turn it into a painting. Not because it's "cheating" but because your eye doesn't see the same as a camera. Your eye sees more detailed color, your eye doesn't frame the scene in standard proportions, and your eye doesn't have a depth of field that's dependent on a setting.
