Navy Damage Control Manual

Handbook of Damage Control, NAVPERS 16191, 1945, was created near the end of World War II and represents best practices in WW II damage control. In this online version of the manual we have attempted to keep the flavor of the original layout while taking advantage of the Web's universal accessibility.

HANDBOOK OF DAMAGE CONTROL

BASIC OBJECTIVES OF DAMAGE CONTROL Shipboard damage control is designed to work toward three basic objectives. These objectives are as follows: 1. Take all practicable preliminary measures to prevent damage. 2. Minimize and localize damage as it occurs. 3. Accomplish emergency repairs as quickly as possible, restore equipment to operation, and organization.

Damage Control | Royal Navy

NSWCPD's Machinery Control System & Advanced Damage Control System (ADCS) Branch began installing ADCS on aircraft carriers and amphibious ships on a class-by-class basis in 2018. The system helps ships manage damage control incidents on U.S. Navy and Coast Guard ships – everything from an enemy attack to an accidental collision or fire.
