Noise A Human History Of

Breaking up the history of sound into prehistoric noise, the age of oratory, the sounds of religion, the sounds of power and revolt, the rise of machines, and what he calls our "amplified age," Hendy teases out continuities and breaches in our long relationship with sound in order to bring new meaning to the human story.

Noise: A Human History Prof David Hendy presents a 30-part series exploring the role of sound, and listening, in the past 100,000 years of human history. Available now

BBC Radio 4 Extra - Noise: A Human History

Writing about the history of noise is like mapping the afterlife or studying the anthropology of ghosts, entirely speculative and seeking to impose a sense of order on the random, and a sense of the physical on the purely ethereal. It is also entirely dependent upon how one chooses to define noise.

Noise: A Human History of Sound and Listening: Hendy ...

Based on a major BBC Radio 4 series, David Hendy explores the role of sound - and of listening - in 100,000 years of human history. In prehistoric caves, drummers used natural acoustics to recreate natural sound. In classical Europe, orators turned the human voice into a lyrical instrument.
