Our Babies, Ourselves. By Small, Meredith F. Read preview. Article excerpt. During one of his many trips to Gusiiland in southwestern Kenya, anthropologist Robert LeVine tried an experiment: he showed a group of Gus mothers a videotape of middle-class American women tending their babies. The Gusii mothers were appalled.

"Our Babies, Ourselves" by Small, Meredith F. - Natural ...

"Small (Our Babies, Ourselves), an anthropology professor at Cornell University, catalogs a dizzying array of Venetian innovations in this illuminating account of how "one small place had an outsized influence on the development of Western culture." She discusses scientific research into how and why humans invent things, and examines how the origin myths of Venice, among them that God directed St. Mark to the island that became the Rialto, fostered innovation by verifying the Venetian ...

Meredith F. Small - Author of Our Babies, Ourselves ...

The Meredith Small article on "Our Babies, Ourselves" reprinted in Applying Anthropology: An Introductory Reader can be a useful follow-up to Body Ritual among the Nacirema. The "Our Babies, Ourselves" article is a very short version of Meredith Small's book by the same name, Our Babies, Ourselves: How Biology and Culture Shape the Way We Parent. The most obvious first lesson, which follows naturally from Horace Miner's Nacirema article, is about how many different ways there are ...

Although well known from her award winning magazine writing, she is also the author of several trade books that take a anthropological look at parenting, sexuality, and mental illness. Her book Our Babies, Ourselves as been called a "cult classic" for parents, health professionals, and anyone interested in parenting styles.

Meredith Small (Author of Our Babies, Ourselves)

I was familiar already with a lot of the content of Our Babies, Ourselves, because Meredith Small's findings crop up in a lot of literature on attachment parenting. However, it was still well worth reading because she delves so deeply into issues of evolution, natural selection, biology, and human development to demonstrate why parenting styles vary across cultural lines.

Our Babies, Ourselves : NPR

Meredith Francesca Small is a Professor Emerita of Anthropology at Cornell University and popular science author. She was born in St. Louis, Missouri. She has been widely published in academic journals, and her research is presented in her most popular book: Our Babies, Ourselves. She spent many years studying both people and primate behaviour. Her current area of interest is in the intersection of biology and culture, and how that has influenced parenting.

Our Babies, Ourselves : Meredith Small : 9780385483629

Although it is isn't a "How to" book, "Our Babies, Ourselves" is by far the best book I've read on baby rearing. Meredith Small presents different

cultures' techniques for raising children, then analyzes them using an anthropological perspective. Small examines how these cultures differ in such areas as nursing, where babies sleep, carrying babies, and how quickly to respond to a baby's cries. Small names specific studies as evidence.
