AMD Radeon RX 5500 XT Review - IGN

The Radeon RX 5000 series is a series of graphics processors developed by AMD, based on their "RDNA" Architecture. The prefix "50" refers to AMD officially celebrating its 50th anniversary in 2019. The series is targeting the mainstream mid to high-end segment and is the successor to the AMD RX Vega series. The launch occurred on July 7, 2019. It is manufactured using TSMC's 7 nm FinFET semiconductor fabrication process.
