Ultima engines reviews: I also have a El Bruto 113 motor ...

This bike, built by a local independent (Rusty Bryan), was the surprise of the weekend. It has an out-of-the-box Ultima 113" engine in it with a 45mm Mikuni carb. It weighs less than 500 lbs. Rusty pulls up on it and says "Take this out"... so I did. Let me tell ya, it was frightening! A...

well had bought a 95 softtail, it came with 113 ultima,it had a thousand miles on it, i was told to put 2500 miles on before riding it hard, so i did, i was riding in town at 35 miles an hour, then all hell broke out, took it back to the shop i bought it from, he thought my primary shoe come lose, it did make alot of noise, but i still rode it to his shop,10 miles away, to his front door, long ...

Ultima EL Bruto engines? | V-Twin Forum

Ultima has a rebuild program, but it's about \$2k with shipping. They build it back to factory specs, but they do not pro-rate for work they don't have to do. This price is for a motor that has thrown a rod or one that just needs freshening up, like mine.

Currently Midwest, under the Ultima name, offers 80-, 96-, 100-, 113-, 120-, and 127-inch engine configurations. As we go to press, it is working on a 140-inch race engine to be released in the spring, rated at 170 hp and 180 lb-ft of torque using pump gas. We'll get our greasy hands all over one and share the results.

Midwest Ultima 127 Engine Review | Hot Bike

I have several friends that have been running the Ultima 113's and 120's with good results. EVERY ONE of them is more than happy to tell me how great their motor is, yet NONE of them have gone on this forum or any other to report the positive service. I have an Ultima 120 that I installed in a chopper build. Haven't even started it yet.
