#### The Future Of Iso 45001

Rumor in the EHS compliance world has it that ISO 45001 is the standard for safety in the near future. This new international standard is going to be the basis for all safety management systems implemented globally, not because companies want to, but because customers will demand it. The delicate dance between safety and the bottom line is finally coming to an end, and this new standard directs top management to implement systems company-wide.
